Kuala Lumpur, Malaysia

PROFESSIONAL SUMMARY

Versatile Technical Leader and Senior Full-Stack Developer with over 7 years of experience architecting, building, and maintaining scalable web ecosystems. Proven track record of managing the entire software lifecycle—spanning R&D, system architecture, CI/CD pipelines, and DevOps. Adept at building high-performing engineering cultures through agile methodologies, rigorous code reviews, and modern AI-guided developer mentorship.

TECHNICAL SKILLS

Languages: PHP, Node.js, JavaScript, HTML, CSS, Tailwind
Frameworks & Libraries: Laravel, Vue.js, React.js, Next.js
Databases: MySQL, PostgreSQL, MongoDB, Microsoft SQL Server
DevOps & Infrastructure: CI/CD Pipelines, GitHub Code Review, Operations, Automation, Systems Architecture
Methodologies & Leadership: Agile, Team Training, R&D Management, AI-Guided Mentorship

WORK EXPERIENCE

- Polareis** Kuala Lumpur, Malaysia
Tech Team Lead May 2025 – July 2026
- Spearheaded full-cycle engineering operations, maintaining complete technical ownership of system architecture, R&D initiatives, DevOps workflows, and robust CI/CD pipelines.
 - Oversaw code standards and deployment quality by establishing rigid GitHub code review processes and system maintenance protocols.
 - Championed team productivity and scale by delivering structured technical training, implementing agile methodologies, and mentoring engineers on best practices using modern AI-guided coding workflows.
- Foqus Sdn Bhd** Cheras, Selangor, Malaysia
Senior Software Developer / Engineer Oct 2023 – June 2025
- **Pixelcard (E-Business Card Platform):** Led architectural planning, task management, and UI/UX reviews. Developed geolocation tracking engines, device-responsive profile layouts, and integrated seamless FIUU payment gateways.
 - **SmartKood (Logistics Platform):** Engineered core features for a business logistics platform focused on QR code workflows, including Touch 'n Go eWallet disbursements, digital lucky draws, and brand owner real-time balance overviews.
- Fusionex Group** Petaling Jaya, Selangor, Malaysia
Solutions Developer Aug 2021 – Sept 2023
- **Farm2Table E-Commerce:** Architected and optimized mission-critical backend math engines for complex real-time cart breakdowns, dynamic promotions, and transactional discount summaries.
 - **8Excite Application & WMS:** Built comprehensive administrative configuration portals handling multi-channel group-buy workflows, order setups, real-time COGS trackers, item transaction logs, and partner channel asset allocations.
 - **8 Tix platform:** Constructed high-performance interactive event seat maps, optimized user-facing ticket selection flows, and designed heavy-traffic event landing architectures.
- LinkZZapp Group Sdn Bhd & Tech-Store** Kuala Lumpur / Petaling Jaya, Malaysia
Software Engineer / Freelance Software Engineer June 2018 – Jan 2021
- **LinkZZapp PMS:** Programmed underlying frameworks for a flagship prop-tech e-Property Platform ecosystem, creating models for Visitor Management, User Feedback, Vacant Possession, and data-driven analytical dashboards.
 - **Account & Notification Layers:** Crafted scalable mobile web APIs optimized through API load balancing architectures, data validation, and built transactional email/FCM alert systems.
 - **Smart Marketing & Kiosks:** Engineered robust content management platforms for ad banner delivery networks alongside executing physical third-party IoT kiosk software integrations.

EDUCATION

Asia Pacific University of Technology and Innovation (APU / APIIT) Bukit Jalil, Malaysia
Bachelor of Science (B.Sc.) in Computer Software Engineering 2014 – 2018
